

## ELECTRIC-POWERED MOWER

An electric riding lawn mower rugged enough to be an Ariens...that's an AMP™ by Ariens Rider. The AMP™ Rider delivers as much drive and cutting power as a conventional gas mower but is eco-friendly, 50% quieter and requires no gas or oil. Unplug the charger, turn the key to "on" and you're off. When you're finished, plug the AMP Rider electric mower back into the charger and the next morning you're ready to go.

Surrounding the first AMP Rider Electric mower is the Ariens team responsible for its design and development.

- ✓ 4 HP Traction Motor and Two 1.7 HP Spindle Motors that are Brushless DC
