

Ariens Chore Products Precision Edger, String Trimmer, Rear Tine Tiller

Precision Edger

Give your landscape a manicured edge with an Ariens® Precision Edger. You will breeze right along any job on your to-do list with the power, performance and reliability that makes Ariens.

Drive Train System

- Standard push with recoil starter

Deck Design

- 12-gauge steel
- Laterally adjustable front axle
- 4-position cutting height adjustment

Additional Features

- 110-degree rotation for edging, trimming and beveling
- integrated safety circuit

String Trimmer

Speeding you through it is a 22-inch cutting diameter...a 15-degree pivoting head that makes it easier to trim in those hard to reach places...larger wheels that make maneuvering around a breeze...and an ergonomically designed handlebar that comfortably reduces wrist and hand fatigue...there's not an easier...faster...or more reliable way to put the finishing touch on a beautifully manicured landscape.
