

Ariens Classic LM Series LM 21, LM 21S, LM 21SW

You will comfortably roll right along...thanks to an ergonomically designed multi-position handlebar that reduces wrist and hand fatigue...use the adjustment brackets to easily dial in one of six cutting heights for a professionally manicured look...to keep you rolling...the mower's baked-on powder coated finish resists the effects of moisture, fertilizers and chemicals for years of reliable performance...it's all right here...to dependably cut all your grass out there.
